DETAILED ACTION

1. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

Claim Rejections - 35 USC § 112

2. Claim 12 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 12, the phrase "the folding mechanism" lacks antecedent basis.

Claim Rejections - 35 USC § 102

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 3, 4 are rejected under 35 U.S.C. 102(b) as being anticipated by Smith, U. S. Patent 5,884,424.

4. Smith teaches a roll up sign comprising a flexible sign face sheet 17, a pair of supports 12 for supporting the sheet 17, and a connection clip member 31 having a flat portion 34 and flange 35 for clipping the flexible sheet to the supports 12. When the legs are forced away from one another the clip can open to release the flexible sheet for engagement with the support 12.

Allowable Subject Matter

Claims 5, 7, 8, 10, 11, and 13-28 are allowed.

5. Claims 2, 6, 9, are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. Claim 12 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Response to Arguments

7. Applicant's arguments with respect to claim 1 have been considered but are moot in view of the new ground(s) of rejection.
